github.com/tyler-bravin

LANGUAGES

TypeScript / JS
Java
Python
SQL

TECHNOLOGIES

FRONTEND

React 19 · Vite · Tailwind · Expo

BACKEND

FastAPI · Spring Boot · Node.js · Firebase

DATA & INFRA

PostgreSQL · Redis · Railway · Git

SYSTEMS & TOOLS

Linux/Arch · Docker · REST APIs · JWT Auth

CORE SKILLS

Full-stack dev · Agile / Git flow · Problem solving · CI/CD · Sys optimisation · Team collab

INTERESTS

PC Building · Competitive Gaming · Linux tinkering · Hardware · Fashion & design

BSc (Hons) Software Engineering graduate (2:1, University of Stirling) with hands-on full-stack experience across React, TypeScript, FastAPI, Spring Boot, and PostgreSQL. Building a growing portfolio of full-stack projects spanning real-time web apps, REST APIs, and mobile development — all available at **tylerbravin.dev**. Comfortable across the full stack from frontend to deployment, with a particular interest in React, Java, and Python. Eager to bring strong engineering instincts and genuine enthusiasm for technology to a software engineering role.

EXPERIENCE

Software Engineering Placement
Jul – Aug 2025

Keep Scotland Beautiful · Stirling

- Built a cross-platform mobile app using React Native / Expo from initial framework through to feature-complete build.
- Implemented Google Firebase authentication and resolved a complex CameraView recording issue through targeted debugging.
- Optimised build pipeline, cutting build time from ~2 minutes to 30 seconds — a 75% improvement.
- Maintained strict brand guidelines across all UI components, fonts, and iconography.

Team Member (part-time)
Feb 2022 – Present

Cineworld · Falkirk

- Coordinated front-of-house operations across high-traffic periods, maintaining service quality under pressure.
- Collaborated with team to plan and deliver new film showings, balancing logistics and customer experience.
- Upheld food safety and hygiene standards consistently across all concessions responsibilities.

Sales Assistant (part-time)
Oct 2019 – Feb 2022

JD Sports · Falkirk

- Delivered tailored product recommendations and resolved customer enquiries to maintain high satisfaction levels.
- Coordinated stock management, deliveries, and merchandise displays with the team during peak retail periods.
- Built strong product knowledge and fostered positive customer relationships through attentive, personalised service.

IT / Student Records Internship
Jun – Jul 2019

Forth Valley College · Falkirk

- Led Windows 10 deployment across the Learning Resource Centre, managing system upgrades end-to-end.
- Independently produced technical training documentation adopted across the department, and delivered an end-of-internship presentation on project outcomes to key stakeholders.

Freelance Java Plugin Developer
2015 – 2019

Various Minecraft / Spigot Servers · Remote

- Worked as a paid freelance developer across multiple Minecraft server teams, delivering custom Java plugins using the Spigot API and building practical OOP and API integration skills.
- Co-developed a KitPvP combat plugin with another developer, collaborating on architecture, feature design, and integration testing.
- Developed a full economy system, staff tooling, and a core server plugin covering ranks and permissions — comparable in scope to EssentialsX.
- Held ongoing Developer roles on several servers, working within team structures and delivering updates against live player-facing requirements.

EDUCATION

BSc (Hons) Software Engineering with Cyber Security — 2:1
2024 – 2026

University of Stirling · Entered via HND articulation into Year 3

Dissertation: wind farm layout optimisation using evolutionary algorithms (Genetic Algorithm + Differential Evolution). Relevant focus: software engineering, AI & machine learning, distributed systems, and computer security.

HND Software Engineering with Cyber Security
2023 – 2024

Forth Valley College · Grade B

Practical security scenarios, secure application development, and real-world programming projects.

HNC Cyber Security & Digital Forensics
2019 – 2020

Forth Valley College · Grade B

Cyber incident investigation labs, case studies, and digital forensics fundamentals.
